LEADERSHIP

VICE PRESIDENT OF OPERATIONS

WPI SMART

(February 2018 - Present)

TREASURER

Society of Women Engineers

(January - December 2017)

DIRECTOR OF INTERNAL EVENTS

Alpha Phi Women's Fraternity

(January - December 2017)

OBJECTIVE

Diligent software engineer pursuing a full-time position in the field of Computer Science with a focus on front-end or web development. Seeking opportunities to leverage group project experience and technical skills in a collaborative environment.

EXPERIENCE

SOFTWARE ENGINEER (INNOVATION) INTERN

LogMeIn / Boston, MA / June 2018 – Present

Working within the LABS Innovation Field Team to assist in every part of the product lifecycle from design, to development, testing, validation, and talking to customers. Helping develop mobile and web applications alongside the lead Software Engineer.

INTERN

Daniel Marr & Son / Boston, MA / May – August 2017

Created Microsoft Excel templates for payroll and estimating departments using Macros and VBA. Assisted the IT department in assessing and solving computer problems for employees.

PROJECTS

MEETING REMOTE - WEBSITE

LogMeIn / Boston, MA / August 2018 – Present

Developed the front end of a mobile application marketing website. Obtained the design of the website from the team's UI/UX designer's mockups within Zeplin and translated to a live website.

MEETING REMOTE – IOS APPLICATION

LogMeIn / Boston, MA / June 2018 – Present

Assisted in the full stack development of a mobile application that allows users to launch a meeting on a GoToMeeting platform from a conference room setting. Users can easily choose a conference room, select a scheduled or ad hoc meeting, and start their meeting automatically from the application on their phone.

GOTOMEETING: MEETING TIP OF THE DAY – AMAZON ALEXA SKILL

LogMeIn / Boston, MA / July 2018

Developed a flash briefing Alexa Skill that gives users a daily productivity tip on how to hold better, more effective meetings. The skill holds multiple feeds for users to customize based on the types of meetings they have and what role they play in meetings. This skill was hosted on AWS Lambda with feeds being retrieved from API Gateway.

INTERACTIVE QUALIFYING PROJECT (IQP)

Imvula Music Program / Cape Town, South Africa / October – December 2017

Led an interdisciplinary team of four assisting Imvula Music Program, a satellite location of Playing for Change Foundation, with its operational practices by facilitating an asset-based approach to discover resources and strengths, through a process of reflection, generalization, planning, and application.
